## FOREWORD

The Government of India has set an ambitious target of imparting skills to 30 crores people, one out of every four Indians, by to help them secure jobs as part of the National Skills Development Policy. Industrial Training Institutes (ITIs) play a vital role in this process especially in terms of providing skilled manpower. Keeping this in mind, and for providing the current industry relevant skill training to Trainees, ITI syllabus has been recently updated with the help of Media Development Committee members of various stakeholders viz. Industries, Entrepreneurs, Academicians and representatives from ITIs.

The National Instructional Media Institute (NIMI), Chennai, has now come up with instructional material to suit the revised curriculum for **Travel & Tour Assistant Trade Practical 1 Year** in **Tourism and Hospitality Sector under Yearly Pattern**. The NSQF Level - 3 (Revised 2022) Trade Practical will help the trainees to get an international equivalency standard where their skill proficiency and competency will be duly recognized across the globe and this will also increase the scope of recognition of prior learning. NSQF Level - 3 (Revised 2022) trainees will also get the opportunities to promote life long learning and skill development. I have no doubt that with NSQF Level - 3 (Revised 2022) the trainers and trainees of ITIs, and all stakeholders will derive maximum benefits from these Instructional Media Packages IMPs and that NIMI's effort will go a long way in improving the quality of Vocational training in the country.

The Executive Director & Staff of NIMI and members of Media Development Committee deserve appreciation for their contribution in bringing out this publication.

## PREFACE

The National Instructional Media Institute (NIMI) was established in 1986 at Chennai by then Directorate General of Employment and Training (D.G.E & T), Ministry of Labour and Employment, (now under Directorate General of Training, Ministry of Skill Development and Entrepreneurship) Government of India, with technical assistance from the Govt. of Federal Republic of Germany. The prime objective of this Institute is to develop and provide instructional materials for various trades as per the prescribed syllabi under the Craftsman and Apprenticeship Training Schemes.

The instructional materials are created keeping in mind, the main objective of Vocational Training under NCVT/NAC in India, which is to help an individual to master skills to do a job. The instructional materials are generated in the form of Instructional Media Packages (IMPs). An IMP consists of Theory book, Practical book, Test and Assignment book, Instructor Guide, Audio Visual Aid (Wall charts and Transparencies) and other support materials.

The trade practical book consists of series of exercises to be completed by the trainees in the workshop. These exercises are designed to ensure that all the skills in the prescribed syllabus are covered. The trade theory book provides related theoretical knowledge required to enable the trainee to do a job. The test and assignments will enable the instructor to give assignments for the evaluation of the performance of a trainee. The wall charts and transparencies are unique, as they not only help the instructor to effectively present a topic but also help him to assess the trainee's understanding. The instructor guide enables the instructor to plan his schedule of instruction, plan the raw material requirements, day to day lessons and demonstrations.

IMPs also deals with the complex skills required to be developed for effective team work. Necessary care has also been taken to include important skill areas of allied trades as prescribed in the syllabus.

The availability of a complete Instructional Media Package in an institute helps both the trainer and management to impart effective training.

The IMPs are the outcome of collective efforts of the staff members of NIMI and the members of the Media Development Committees specially drawn from Public and Private sector industries, various training institutes under the Directorate General of Training (DGT), Government and Private ITIs.

NIMI would like to take this opportunity to convey sincere thanks to the Directors of Employment & Training of various State Governments, Training Departments of Industries both in the Public and Private sectors, Officers of DGT and DGT field institutes, proof readers, individual media developers and coordinators, but for whose active support NIMI would not have been able to bring out this materials.

# INTRODUCTION

## TRADE PRACTICAL

The trade practical manual is intended to be used in workshop . It consists of a series of practical exercises to be completed by the trainees during the one year course of the **Travel & Tour assistant** under **Tourism and Hospitality** sector. Trade supplemented and supported by instructions/ informations to assist in performing the exercises. These exercises are designed to ensure that all the skills in compliance with NSQF LEVEL - 3 (Revised 2022) . The manual is divided into Five modules.

**Module 1 - Introduction to Tourism and Transport and Accomodation Aspects**

**Module 2 - Travel and Tourism Destination**

**Module 3 - Heritage and Cultural Tourism of India**

**Module 4 - Tourism Promotion Activities and Travel Circuits of India**

**Module 5 - Marketing, Computer Application in Tourism**

The skill training in the shop floor is planned through a series of practical exercises centred around one practical project. However, there are few instances where the individual exercise does not form a part of project.

While developing the practical manual a sincere effort was made to prepare each exercise which will be easy to understand and carry out even by below average trainee. However the development team accept that there is a scope for further improvement. NIMI, looks forward to the suggestions from the experienced training faculty for improving the manual.

## TRADE THEORY

The manual of trade theory consists of theoretical information for the one year course of the **Travel & Tour Assistant** Trade. The contents are sequenced according to the practical exercise contained in the manual on Trade Theoryl. Attempt has been made to relate the theoretical aspects with the skill covered in each exercise to the extent possible. This co-relation is maintained to help the trainees to develop the perceptional capabilities for performing the skills.

The Trade theory has to be taught and learnt along with the corresponding exercise contained in the manual on trade practical. The indicating about the corresponding practical exercise are given in every sheet of this manual.

It will be preferable to teach/learn the trade theory connected to each exercise atleast one class before performing the related skills in the shop floor. The trade theory is to be treated as an integrated part of each exercise.

The material is not the purpose of self learning and should be considered as supplementary to class room instruction.

**Familiarize yourself with all the features of the system.**

##### Don'ts

**Don't consider the telephone as a toy.**

**Don't be wasteful, time on telephone cost money.**

**Don't transfer the call just to get rid of the caller.**

**Don't forget that the caller may become impatient if you don't attend him properly.**

**Do before telephone rings**

**This must be done between two students as mock drill**

## TASK 2: Practice Follow Telephone Etiquette

If you made the call (Especially International Calls)

- 1 Introduce yourself to the person who answers the phone.
- 2 Use appropriate language and remember you could be on speaker phone.

**Do not leave mission critical messages on answering machines. You never know who will hear them.**

**Be careful about leaving intimate messages on answering machines.**

**Do not leave messages that are confidential, potentially damaging or subject to incorrect interpretation on a voice mail system.**

- 3 Leave concise short messages with the time and the date.
- 4 Be careful of rude messages or messages in jest.

**Do not interrupt in a conference call - wait for your chance to contribute.**

**Be sure to tell the participants that you are leaving a conference call.**

**Don't just hang up or worse slam the phone down.**

**Don't make conference call or any calls for that matter from noisy places like factories, workshops or TV rooms.**

- 5 Say goodbye!

If you are receiving the phone call (Especially International Calls)

**Be sure to somehow identify where you are answering from. For example "Hello, this is Ralph Jones!"**

**Don't just say "yes" or "yeah".**

- 6 Be circumspect with greeting messages on answering machines.
- 7 Repeat and forward phone numbers can be a help.
- 8 Use a short clear message.

**People making international calls are not interested in a lengthy speech on "the state of the nation."**

---

### Table d' hote (Fixed menu /Thali system)

#### A The menu has a fixed number of courses.

- There is a limited choice within each course.
- The selling price of the menu is fixed.
- The dishes provided will all be ready at a set of time.
- Service of food is very fast.

#### B A' La Carte (from the card)

- It gives a full list of all the dishes that may be prepared by the establishment.
- Each dish is priced separately.
- A certain waiting time has to be allowed for many of the dishes/chart no.1
- Some dishes are cooked to order.

This may be regarded as a limited form of a' la carte menu, all the dishes listed being such that they are prepared and available with the minimum of delay, which in turn allows for a higher seat turnover. It allows the client to have either a snack with a beverage, a three course meal with coffee, or even just a beverage.

European plan (EP):

It includes only the room tariff.

Continental plan (CP):

This plan includes room rent and continental breakfast.

American plan (AP):

This plan includes bed, continental breakfast, lunch and dinner.

Modified American plan (MAP):

It includes room rent, continental breakfast, lunch or dinner (mostly dinner).

Barmuda plan (BP):

This plan includes bed and English breakfast.

- Numbers of the trains connecting these stations are also mentioned for your reference.
  - If destination stations are not listed under it, the table numbers will be specified against, the originating station itself.
  - Go to the relevant table, and choose the most, convenient train.

#### How to use the Timetable

**Trains at a Glance, is a handy guide brought out every year by the Ministry of Railways for the convenience of regular intercity and long distance travellers as well as ford tourists. The timings of all the Mail/Express trams operated by Indian Railways are indicated in this book. However, the tables do mat; indicate all the stoppages of a train - only stoppages at important stations are shown\* This publication docs not include the timings of passenger (slow) trains, through and slip coach services. For these details, please refer the Zonal Timetables.**

**the Tables in this book will give you details about the departure and arrival timings of trains, the stoppages at major stations, their days of service, classes of accommodation, distance in kilometres and availability of pantry cars.**

A step-by-step guide to help you find the right Table.

#### Method I

Using the Station Index.

- Go to the Station Index on page. This Index lists out all the stations appearing in the tables, in an alphabetical order.
- Important stations have various destination stations listed under them.
- The table numbers are given alongside the destination stations.

#### Method II

Using the Train Number Index. When you know the Train Number

- Go to the Train Number Index page, where train numbers are given in an ascending order, along with train names.
- Locate your train number and go to the table number given alongside.

#### Method III

Using the Train Name Index.

When you know the Train Name

- Go to the Train Name Index page, where train names are given in an alphabetical order; along with train number and table number.
- Locate your train number and go to the table number given alongside.

#### Method IV

Using the Route Map with Table Numbers.

- Passengers travelling between intermediate statione, can easily locate the relevant table using the Route Map with Table Numbers, Go to the Route Map on page.
- Locate your starting station and trace the route to your destination station.
- The numbers along the route indicate the table numbers.

If the intention of the foreigner is to stay in India for more than 180 days, he/she should get himself/ herself registered well before the expiry of 180 days from the date of arrival with the FRRO/FRO concerned.
- c Foreigners (including minors above 16 years of age) have to report in person or through an authorized representative to the appropriate Registration Officer for registration. No registration is required in respect of children below the age of 16 years.
- d Registration is also required in the case of visa less than 180 days and if there is special endorsement "for registration required". However foreigners entering on Entry(X) and Business visas valid for more than 180 days are required to register with the FRRO, FRO if they continuously intend to stay for more than 6 months i.e. more than 180 days on each visit. (But exempting visa bearing endorsement as "Stay not to exceed 180 days hence no registration required."
- e All Indian Missions shall stamp the visas of the foreigners mentioned at above to the effect "REGISTRATION REQUIRED WITHIN 14 DAYS FROM THE DATE OF ARRIVAL" in India. As regards (b) the Indian Missions may stamp the visas to the effect "REGISTRATION NOT REQUIRED IF EACH STAY DOES NOT EXCEED 180 DAYS".

f Apart from the above, foreigners entering on Journalist and any other category of visa which is valid for more than 180 days and do not have a special endorsement of "Each stay 180 days hence no registration required- are required to register with the concerned F.R.R.O.'s, F.R.O.s within 180 days of their arrival. Foreigners (including minors above 16 years of age) have to report in person or through an authorized

representative to the appropriate Registration Officer for registration. No registration is required in respect of children below the age of 16 years.

g Ordinarily, the registration process is completed on the same day, but it may vary in those cases where field enquiry/other checks are required to be done by the registration officer.

h The above guidelines are valid for all cases except those where visa has special endorsement regarding registration.

- 2 Get the latest railway time table
- 3 Follow the procedure from exercise 1 to 4

have various destinations stations listed under them. The table numbers are given alongside the destinations stations. Numbers of the trains connecting these stations are also mentioned for your reference.

**How to use this time table**

Trains at a glance, is a handy guide brought out every year by the **Ministry** of railways for the convenience of regular intercity and long distance travelers as well as foreign and domestic tourists. The timings of all the mails/ express trains operated by Indian railways are indicated in this book. However, the tables do not indicate all the stoppages of a train only stoppages at important stations are shown. This publication does not include the timings of passenger (slow) trains, through and slip coach services. For these details, please refer the zonal time tables.

- b If destination stations are not listed under it, the table numbers will be specified against the originating station itself.
- c Go to the relevant table and choose the most convenient train.

The tables in this book will give you details about the departure and arrival timings of trains, the stoppages at major stations, their days of service, classes of accommodation, distance in kilometers and availability of pantry cars.

**Method 2**

**Using the train number index.**

- a When you know the train number.
- b Go to the train number index on the specified page number, where train numbers are given in an ascending order, along with train names.
- c Locate your train number and go to the table number given alongside.

A step by step guide to help you find the right table.

**Method 3**

**Using the train name index**

When you know the train name

**Method 1**

**Using the station index**

- a Go to the station index on the specified page number  
This index lists out all the stations appearing in the tables, in an alphabetical order. Important stations

- a Go to the train name index on the specified page number, train numbers are given in an alphabetical order, along with train number and table number.
- b Locate your train number and go to the table number given alongside.

## Method 4

### Route map with table numbers

Passengers travelling between intermediate stations can easily locate the relevant table using the route map with table numbers.

- Go to the route map page.
- Locate your starting station and trace the route to your destination station
- The numbers along the route indicate the table numbers.

© NIMI NOT TO BE REPUBLISHED

**Preparing brochures for different tourist destinations**

**Objective:** At the end of this exercise you shall be able to

- fluent in preparing brochures for tourist distinctions.

Requirements		
<b>Materials/Equipments:</b>		
• World map	- 1 No.	<ul style="list-style-type: none"> <li>• Coral Draw 1 Photoshop – to be installed in each computer</li> <li>• Internet connection – for each system.</li> </ul>
• Destination list – India	- 1 No.	
• Destination list –Abroad	- 1 No.	
• Laptop trainee	- 1 for each	

**PROCEDURE**

**TASK 1: Practice using coral draw / Photoshop**

- 1 Install coral draw or Photoshop package in the system.
- 2 Practice using, different options available with the assistance of the computer tutor.
- 3 Open a fresh page in the Photoshop
- 4 Click icons available in the tool bar and start using in the page.
- 5 Practice again until you are familiar with all the icons.
- 6 Click 'save' option and be familiar with saving the file that is being used.

**TASK 2: Gathering relevant materials**

- 1 Choose the destination for which the brochure is to prepared.
  - iii Architectural marrels
  - iv Cultural features
  - v Heritage
  - vi Cuisine
  - vii Shopping activities
- 2 Collect information on the destinations unique feature like
  - i Historical signification
  - ii Geographical fractures

**TASK 3: Choosing the method**

Method 1 of 2: The Text

- 1 Introduce an attractive sentence that would impress the customers and gets them to read the rest of the brochure.

- Do not immediately include the price. If it is something really expensive, give details about your product, then introduce the price.

Fig 3

- Choose your target audience.** Budget tourists will have very different travel goals than family or luxury travellers.

Fig 4

- Craft the literature according to the location and customers.

A tour of a historic village can be educational, and brochures may target schools. Conversely, a South American resort specializing in destination weddings should focus on the romantic details unique to the locale and why those details will make a client's wedding memorable.

- Highlight the main features:** Carefully choose the top features that will most appeal to your target audience and list in bullet points. Do not try to provide complete in-depth detail; these features are the teaser that should encourage clients to seek your agency for more details.

- Compartmentalize brochures marketing general destinations by activity. Group accommodation options in one space, and recreation information in another.

## 6 Organize for clarity and readability

- Make the brochure easy to scan. If there is too much text, potential visitors will probably not take the time to read everything.
- Write short, concise sentences.
- Check the brochure for proper punctuation, spelling and grammar. Nothing can cause you to lose more credibility than misspelling the name of your destination.

## 7 Choose reader-friendly fonts

- Enlarge or use a different colour for key words or headlines so they stand out from your text

- Include your office contact information and business hours.

- Consider using one or two positive testimonials from past visitors.

## Method 2 of 2: The Visuals

Fig 5

- Choose eye-catching photos that tell a story about the destination.

- Examples: A beaming visitor hugging a dolphin at a sea life attraction, or a woman relaxing with a massage in an open-air spa that overlooks the tropical sunset.

- Choose photos that are current and of high quality.
- Include photos of people enjoying themselves at your destination rather than showing an empty hotel room or deserted beach, as people enjoy seeing others having fun. This will invite readers to project themselves into the photo.

- Consider the colour scheme carefully.

- Convey a relaxed feeling appropriate for a spa, use muted pastel tones. Children's destinations are best marketed with bright, bold colours. Historical site brochures can be given an "antique" feeling with sepia and earth tones.

- 3 Organize the brochure so the copy and visuals work together.
- 4 Invest in a professional printing company.

- Provide a final copy proof. This will ensure no major changes that affect the layout or design occur.

**Final Outcome**

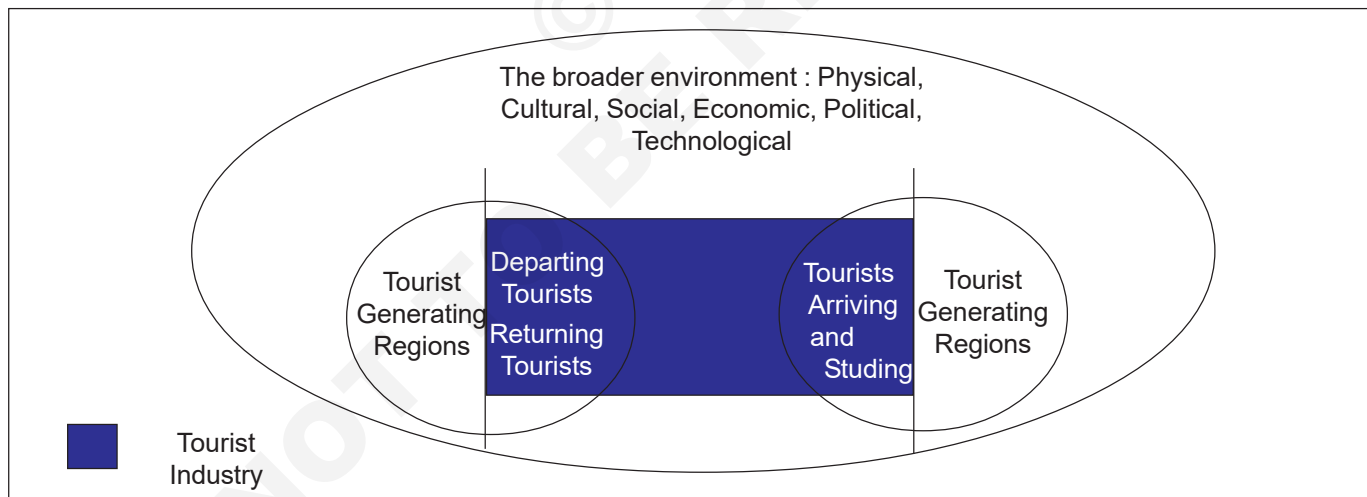

**Draw chart on tourism market systems**

**Objective:** At the end of this exercise you shall be able to

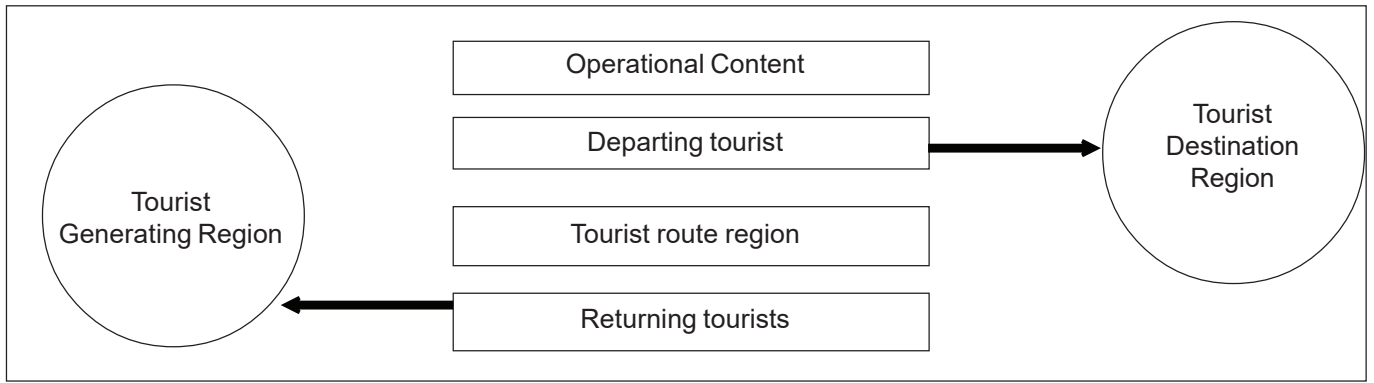

- draw chart on tourism system by integrating tourism markets, transportation destination & there marketing.

**TASK 1 : Draw chart integrating tourism and its environment**

**TASK 2 : Draw chart integrating tourism and its variables**

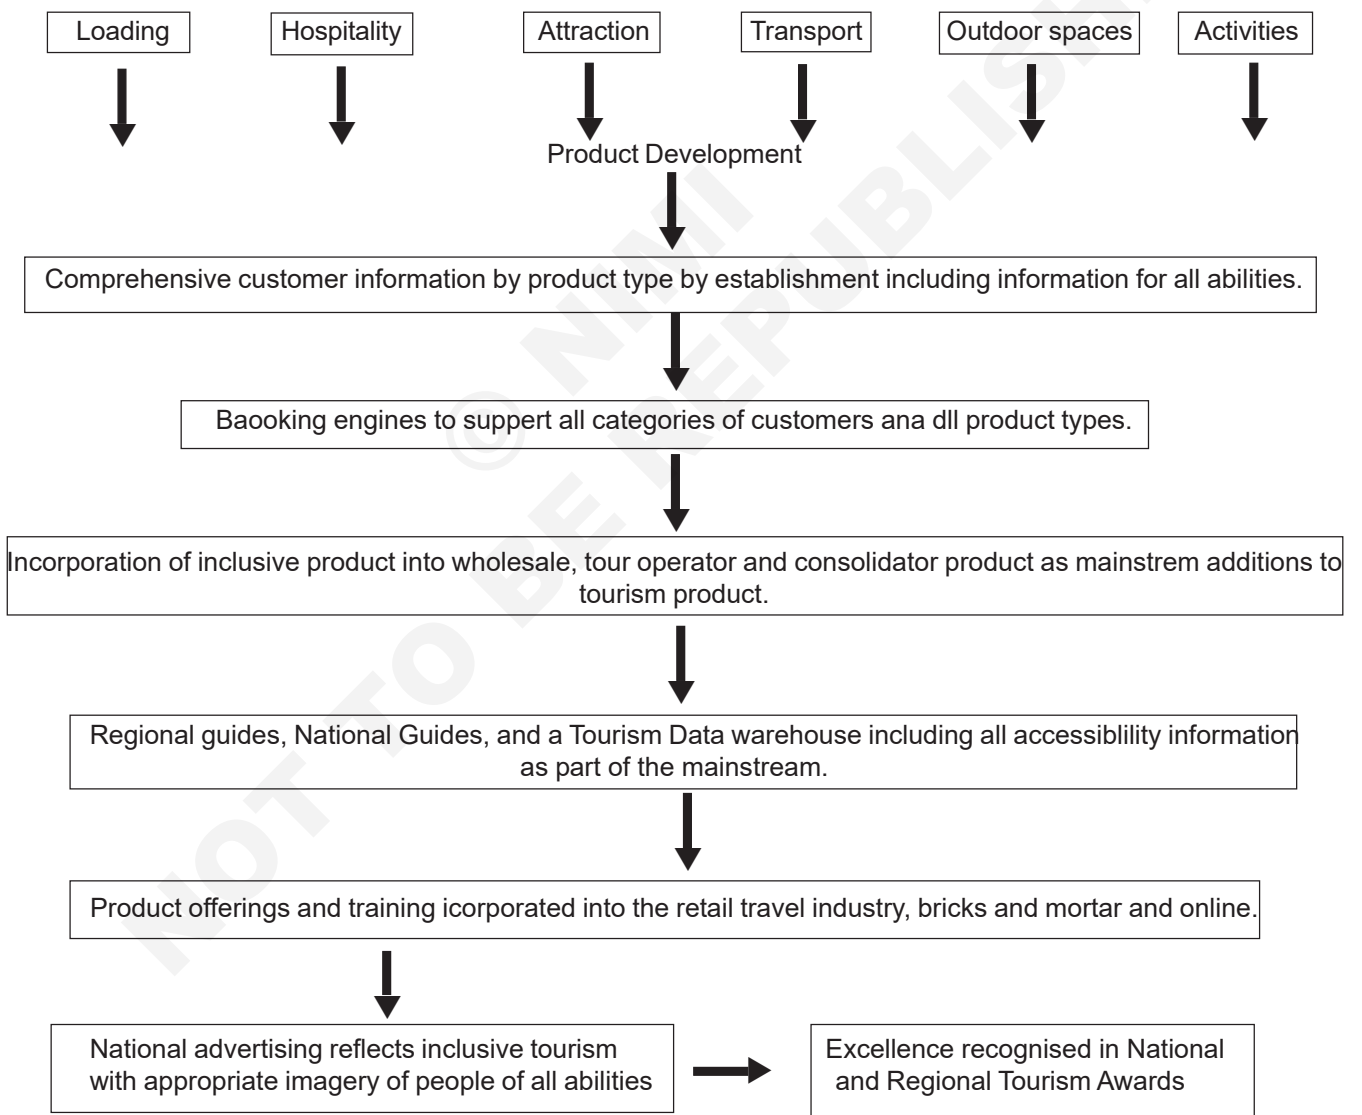

- 1 Factors include economic, socio - cultural political, technological legal and environmental variables

**TASK 3 : Draw a flow chart integrating tourism and its market**

**Inclusive Tourism Strategy Outline - Key Elements**

**Infrastructure - Accessible Assets**

**Assumption**

The key underlying assumption of the above is that inclusive tourism is seen as a "valid" market and travelers with a disability are seen as customers. The key transition

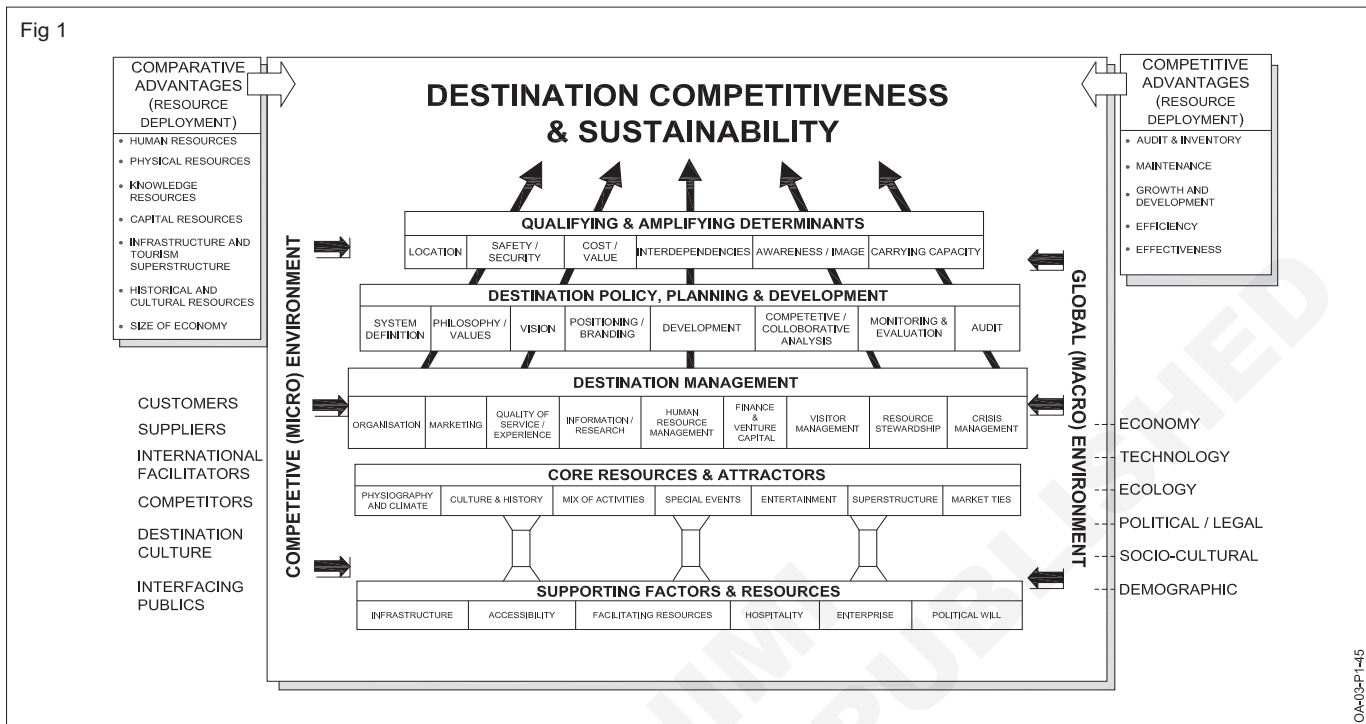

is from supplying or building the infrastructure to fully incorporating it into the tourism offering. The cultural change that needs to occur is the recognition and understanding of the needs of the disabled traveler. Accessible infrastructure has to been seen as a

competitive advantage and the principles of universal design applied to product development, staff training and most importantly information provision.

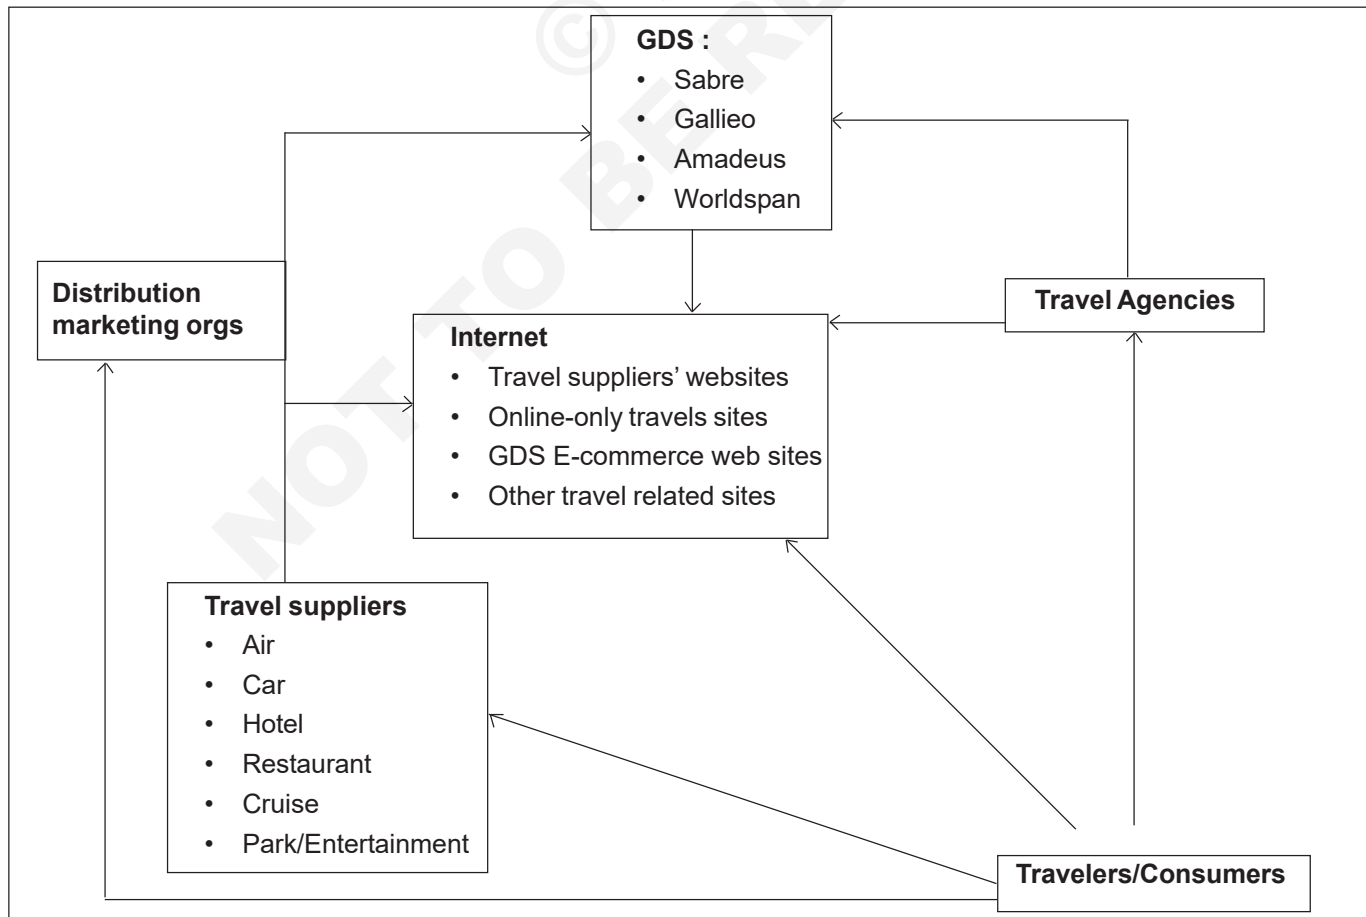

Inclusive tourism will not work until it is fully incorporated into all levels of the tourism industry and is incorporated into all mainstream product offerings and retail sales.

In other words it has to be seen as “just another product offering” to cater for another market sector.

**TASK 4 : Draw chart integrating tourism and destination sustainability**

**TASK 5 : Draw chart integrating tourism and transport services**

##### Types of tour packages

FIT or Foreign Independent Traveler

For travelers who do not want to be part of a group, but they want to travel in an organized tour. This is the most popular way to travel to Latin America. A tour for FIT's can be operated as a Seat-in-Bus tour (SIB) or as a private Tour. Foreign Independent Traveler “does not mean” you Will be on your own; you will always have a local host for every service you have arranged.

##### Group tour

When the same group follows the same itinerary from beginning to end. Variations or modifications of the itinerary are impossible. Option Pre and post Tours are very popular for group tours. A group tour can be locally hosted or fully escorted.

##### Locally Hosted

Every service you receive will be hosted by a local representative or by a bilingual tour guide.

##### Fully Escorted

In addition to your local tour guide, a tour manager travel with you throughout the complete itinerary, and he available 24-hours a day. The tour manager responsibilities are to oversee the complete operation the itinerary, organize dining outing and activities the free time in the itinerary. Sort of hold your hand the while trip. Fully Escorted Group Departures were popular several years ago when Latin America was popular than it is today. The price of a fully escorted tour higher because all the participants must share the cost the airline ticket, meals, hotels and remuneration of tour manager. Airline usually provide one free ticket groups larger than 25 persons and hotels will grant or complimentary room for group using 15 or more room

##### Travel Agents

Travel agents plan, organize, and conduct tours and for individuals or group. The duty of a travel agent is assist travelers with the travel schedules, available vacation packages, food facilities, guiding them in new places, needs and help them with the best possible arrangements.

Also, many major hotels, resorts, cruises use travel agency to promote their travel package to millions of people year. Travel agents give guidance and suggestion various tourist destinations around the world and arrangements for transportation, hostel accommodation car rentals, tours, and recreation. Travel agencies also

advise on weather conditions and recreation spots. For foreign trips, travel agents provide information on customs regulations, currency exchange rates passports, visas, and certificates of vaccination.

Online travel agents in India consult a variety of computer based sources for information on departure and arrival times, hotel ratings and accommodations fares etc. Travel agencies also visit hostel, motels, resorts, and restaurants to evaluate their comfort, clean lines, and the quality of food and service so that based on their experiences, they can recommend on their clients. Scales and marketing skills are very essential for travel agents to promote their services.

Travel agents make presentations, advertise and suggest company- sponsored trips to business managers. Many travel agencies specialize in special trips such as leisure or business. This particularly depends on the size of the agency and experience in the industry. Apart from offering the usual service that a travel operator provides with online travel agencies give an edge by offering service like online travel blogs, agency discussion boards, review sites and social networks.

There may also be Asia specialist travel agents that particularly concentrate on exotic tourist destinations of Asian countries. People prefer specialist travel agencies as they are more familiar with the regions and also known a lot about different specialties of different regions. Many tours and travelers in Asia offers customized traveling and execute the dream of a perfect tour. Travel agent Asia specialists dispense consumers with everything they need for right from researching and planning to purchasing a whole trip.

Travel and tourism industry is developing in a great way and thus in this booming sector travel Agents have a key role to play. Because of stiff competition, more and more travel agencies are offering customized and special services along with great holiday packages at a discounted rate. Technology and communication has grown an extent that travel and tourism has become easy and convenient. The impact of low cost carries for online travel and distribution is also enormous. Internet and telecommunications have paved way for travel agencies and it has become necessary for travel agents to advertise themselves over the net and have their websites. Asian tourism becoming more and more famous and people all around world are desirous of coming to visit it.

A computer is a machine that manipulates data according to a list of instructions.

The first device that resemble modern computers date to the mid 20<sup>th</sup> century (1940-1945), although the computer concept and various machines similar computers existed earlier. Early electronic computers were the size of a large room, consuming as much power as several hundred modern personnel computers (PC). Modern computers are based on tiny integrated circuits and are millions to billions of times more capable while occupying a fraction of the space. Today, simple computers may be made small enough to fit into a wristwatch and be powered from a watch battery. Personnel computers, in various forms,

are icons of the information Age and are what most people think of as “a computer”, however the most common form of computer in use today is the embedded computer. Embedded computers are small, simple devices that are used to control other devices- for example, they may be found in machines ranging from fighter aircraft to industrial robots, digital cameras, and children toys.

The ability to store and execute lists of instructions called programs makes computers extremely versatile and distinguishes them from calculators. The church-turing thesis is a mathematical statement of this versatile. Any computer with a certain minimum capability in principle, capable of performing the same tasks that any other computer can perform. Therefore, computers with capability and complexity ranging from that of a personal digital assistant to a super computer are all able to perform the same computational tasks given time and storage capacity.
